## No Internet connection is no longer a problem

Stop worrying about no Internet connection because your home will keep its smart features even without it. FIBARO's smart home keeps up the good work even without the world wide web connection.

No Internet  
connection

Internal Z-Wave  
connection

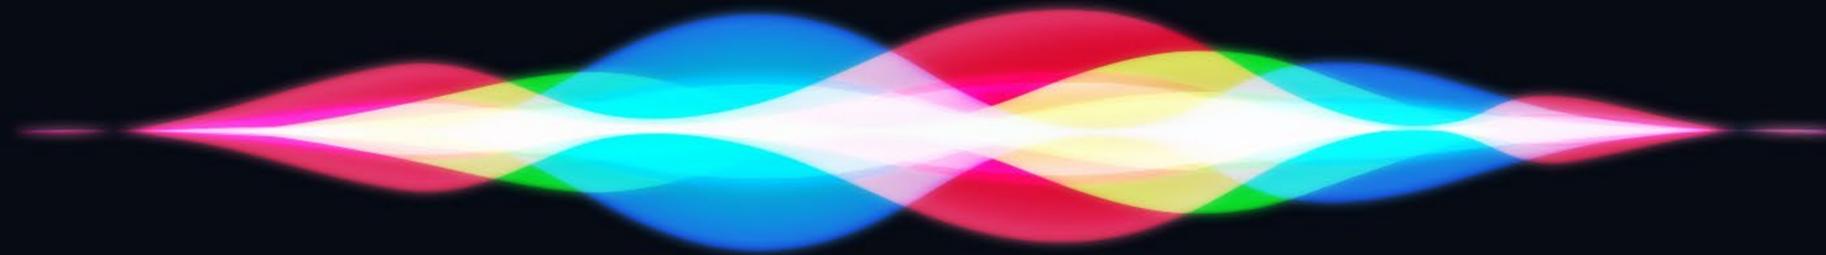

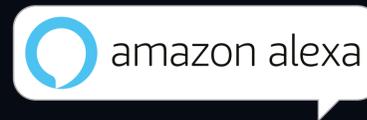

## Manage your smart home with a smartphone

Home Center App provides constant connection with your smart home and lets you manage it from anywhere in the world.

The mobile app's promising UX and simplicity of use have resulted in winning the 2019 CES Innovation Award.

## Your voice matters

Manage entire FIBARO smart home in a different way including your voice.  
Just a few words to one of the most popular voice assistants make things happen in no time.

## Car that knows your smart home well

Voice control available in a car brings smart home management right into your car equipped with Android Auto and CarPlay. Full control over home devices while being on your way lets you prepare your home for your return or turn on entire security system while leaving the house.
